

Rekola Addon Workbelt

Product code	Color	Dimension	
10-90013	Blue	150 x 41,5 x 3 cm	Rekola Addon work belt with buckle lock 425 grs
Packed	1 pcs pp bag 20 pcs 1-pack per transport box		
Where:	In conjunction with utensils and trolleys, optimizing the cleaning process and reducing the trafficking during the cleaning process. Suitable to any project, with exception of locations, where daily disinfection of the belt would be required		
How:	Optimal in conjunction Rekola Reflex concept and Rekola Motion trolleys . Also suitable for other brands and concepts		
	Rekola Addon work belt contains several different bags of different dimensions. Each bag is attached to the belt by Velcro so that the belt is easy to adapt to personal needs and cleaning circumstances. The 150 cm buckle belt can easily be adapted to the required length.		
Mount:	Adapt the buckle belt by pulling on the open end of the belt. Adapt the belt to the personal circumstances and needs and remove eventual not to be used pouches. Wrap the modified belt around the hips and close the buckle.		
Demount:	Release the buckle of the belt. Store at a clean and dry place. Do not leave your personal possessions in the belt when storing		
Maintenance			
Ergonomics:	The Rekola Addon work belt reduces the trafficking, as it influences the process of walking back and forward to the cleaning trolley during the daily manual cleaning		
Cleaning:	The belt can be washed, preferable not higher than 60 degrees C. and air dried. Remove the aluminum carabiner during washing, to avoid corrosion. Because of the Polyester material do not use softener and or Chloride products. This will influence the lifetime of the product		
Disposable:	All parts can be reused or disposed for generating energy		

REKOLA

Components

Characteristics	
functionality	The work belt is an Addon product optimizing the work flow between cleaning trolley and the surfaces to be cleaned. Enabling the worker taking different color coded cleaning cloths, a spray bottle and a roll of garbage bags into a room at the same go. This reduces the trafficking % of the cleaning process (average 5-8%) significantly.
ergonomics	The adaptable segments make the work belt also comfortable for shorter employees, when kneeling for cleaning at lower areas. Reduction of the trafficking also includes reduction of the mileages that employees have to walk every working day. The belt is designed for low weight transports; avoiding back strain. The buckle belt can be adjusted to the comfortable dimension.
Guarantee	
One year manufacturer guarantee after purchase
